

■ DuraPor platen

DuraPor sheets are anodised aluminium plates with open pores and a decorative surface structure. This base plate can be printed both digitally as by silkscreen printing. Moreover, this plate is also suitable for most aluminium printers of other brands. These sheets do not have a protective coating, but they have a guaranteed shelf life of at least 3 months thanks to special purpose packaging.

Aluminium

- AlMg 1 (5005)
- ½ hard

Anodised layer

- DuraPor25 : 23 - 25 µm
- DuraPor20 : 19 - 21 µm
- DuraPor15 : 13 - 15 µm
